T. B. Trevillian, Town Sergeant for many years, is not a candidate for reelection, as yet no one has filed his name for the position.

Better Lighting Service.

The Virginia Light and Power Company is arranging to extend the lighting service on Railroad Avenue, Broadway and James Streets. Plans have been submitted to the Street Committee for approval. The necessary poles and wires will in a few days be received, as a force will be put to work at once. This will give service to a third of the city of Ashland.

Census Enumerator of Ashland has finished taking a list of the town, but nothing can be learned as to the increase in population. In 1900 the students of Randolph-Jackson were taken in the census. This year they will not be listed. In 1900 the figures were 1,500. Those best informed put the figures now between 1,350 and 1,400, while some make estimates as high as 1,600. Enough is known to insure a good increase.

Hanover Circuit Court will meet Monday and continue throughout the week.

The Democratic County Committee has been called to meet at the courthouse Monday at 12 o'clock noon. FIVE MURDERERS GET FURTHER TIME

Not One of Condemned Negroes Will Die in Electric Chair To-Day.

PREFERS MARRIAGE TO JAIL

Fugitive Wants to Reform. Koiner Busy on Institute Work.

Having been unable to go carefully all through the mass of evidence relating to the cases of the men condemned to death by electrocution, Governor Mann yesterday granted further respite to Calvin Johnson, Eugene Dorsey, Richard Pines, Henry Smith and Thomas Noel. This means that no one will die in the electric chair at the State Penitentiary to-day.

Smith's sentence was reprieved to June 2, while the other four are slated to die on June 10. Samuel Hardy and Angelo Hamilton are to be electrocuted next Friday, while the date for the execution of "Shorty" Jones had been previously postponed to June 2.

Mary Reprieved.

The four Alexandria negroes have now been in the penitentiary for months. Respite began in the cases of Johnson, Dorsey and Pines last autumn. In fact, it is stated that the new date fixed for Johnson's execution—June 10—will be the anniversary of his conviction of the murder of Walter Schultz. Governor Swanson granted several delays, first to get the case before the Supreme Court and later to await the trial of Henry Smith, the fourth man, who had testified against the other negroes.

The effort in behalf of Noel is recent. He was shot while trying to escape from the Norfolk County Jail, a first reprieve being given him to allow him to recover from his wounds before being brought to the penitentiary.

Guesses have been made from time to time that not one of the entire bunch of convicts would go to their death, excepting, perhaps, Noel. But the Governor has not reached a decision in any instance. Perhaps there is more reason to think that "Shorty" Jones, of Pulaski, will secure a commutation than is the case with any of the others.

WANTS TO GET MARRIED

South Carolinian Objects to Being Taken Away for Trial.

John Crouch, of South Carolina, wants to get married. Therefore he does not want to go back to his native State in charge of an officer of the law.

Crouch is in jail at Lynchburg. In the Hill City is also M. M. Buford, who is awaiting requisition papers from Governor Mann. The prisoner is under indictment in Newberry county, S. C., for grand larceny.

About the same time that the request for the official papers reached the Governor's office yesterday there came a letter from Crouch. He says he has reformed and wants to lead a honest life in Virginia. Furthermore, he has won the heart of a Virginia woman and wants to marry her. He does not want his plans interfered with.

But the Governor cannot do anything in the premises. He has a formal request from Governor Aswell for the person of Crouch. Everything is in order excepting the necessary fee, and when that comes in the request will be honored and the papers sent to Lynchburg.

Crouch is accused with two others of the crime of stealing the sum of \$55 against certain statutes, and against the peace and dignity of the State. The alleged crime was committed on January 1 last, and Crouch escaped on February 25.

Working for Exposition.

Captain W. W. Baker, the member of the House of Delegates from Chesterfield county, has returned from New York, where he attended a banquet at Hotel Astor in furtherance of plans for holding an exposition in New York City in 1913. The occasion is to commemorate the three hundredth anniversary of the settlement of Manhattan Island.

A conference was held in reference to the matter, with Captain Baker presiding. It is planned to ask all the States to take part in the exhibit.

Captain Baker thinks it the irony of fate that, after visiting the cities of New York, Philadelphia and Baltimore, he should have been the victim of robbers within sight of home.

GIANT FIGHTER GOES DOWN WAYS

Florida, Leviathan of the Navy. Is Launched at New York.

DESTROYER'S FIRST DIP

Two Vessels Will Be Important Additions to Country's Sea Force.

New York, May 12.—Flying the white-starred ensign of the United States Navy at her stern, the Stars and Stripes at her stern and a string of gay signal pennants along the 320 feet of her deck line, the battleship Florida, the biggest of the American "Dreadnoughts" built thus far, was successfully launched at the Brooklyn Navy Yard to-day, in the presence of the Vice-President of the United States, the Secretary of the Navy, naval attaches of all the powers and a crowd of 50,000 enthusiasts whom lowering skies and intermittent rains had failed to keep away.

The 21,825-ton fighting leviathan, built to carry the thunder of ten 12-inch guns, the concentrated big gunners of five ordinary battleships, slid down the ways to the strains of the "Star Spangled Banner," played by the Navy Band and Twenty-ninth Infantry band, while the crowd cheered and hundreds of river craft roared their noisy welcome.

Her lesser sisters, moored and anchored in the navy yard, the battleship Indiana, Nebraska, Connecticut, Yankton and Hancock, dipped their colors and fired a salute of twenty-one guns as the "Dreadnought" fighting machine reached the water.

As soon as the tide was declared favorable, word to remove the keel blocks was given, and Naval constructor Baxter took up his station at the stern of the Florida on the starboard side.

The listening party headed by Miss Elizabeth Fleming, daughter of a former Governor of Florida, and comprising Governor G. H. B. and Senators Tallaferra and Fleming, of Florida, took up their positions in the special platform near the nose of the big ship, and Miss Fleming and her eleven attendants, six representing Florida and five the navy, moved up expectantly to the rail. Finally the noise of the hammering on the keel blocks ceased, and constructor gave the word, "Save off," to the ship's carpenters.

Miss Fleming seized the heribonned bottle in her hands and awaited the crucial moment. There was an ominous creaking, the sliding and the permanent ways slowly drew apart and Miss Fleming sent the champagne bottle crashing against the ship's christen "Go, brave ship; I christen thee Florida."

The launching was the most successful ever held at the New York Navy Yard.

Destroyer Launched.

Quincy, Minn.—That grim sea fighter, Commodore Andrew Sterrett, would have swept the Mediterranean clean of Barbary pirates if he had under his feet so formidable a craft as the torpedo boat destroyer which was given his name as she plunged down the launching ways to-day. But Commodore Sterrett died 107 years ago, in the days of the wooden frigate and the muzzle loaders, and the Navy Department had difficulty in finding a direct descendant to smash the wine bottle and christen the boat with his name. This honor was given to Miss Dorothy Rosalia Gillingham, of Baltimore.

When the Sterrett receives her equipment and takes on board a dozen or so of those long brass tubes, it is a question of naval science whether she could deal a fatal blow to so formidable a fighter as the battleship Florida, which also made her maiden plunge to-day. The Sterrett is expected to make twenty-nine and a half knots an hour from the 600 revolutions each minute of her two turbine-driven screws.

The Sterrett and her sisters are notable pioneers of new and enlarged types of ocean-going destroyers, planned to keep the sea with the battleship fleet under all conditions. The
